Hi James,

Just wanted to clarify, is the permanent right-of-way proposed to be 30' wide throughout trenched areas as well? So 45' temporary and 30' permanent?

Thanks,
Alison

Just a follow up to let you all know the applicant has requested and it is reflected in their drawings to clear a 30' wide right-of-way between the HDD entry and exit locations on the project. We are placing the proposed project out on public notice as presented to us in order to obtain regulatory and resource agency comments on the project. If you have any further question related to this matter or anything else with the proposed project please call or email me. Thank you.

Ladies/Gentlemen,

Just to give you a heads up. We received a request NGO's to extend the public notice comment period to a full 30 days for the above referenced project. The public notice started October 3, 2016 and will now run till COB on November 2, 2016. If you have any questions, please call or email me. Thanks.
